

# Phil Cain, Industry and Vendor Liaison

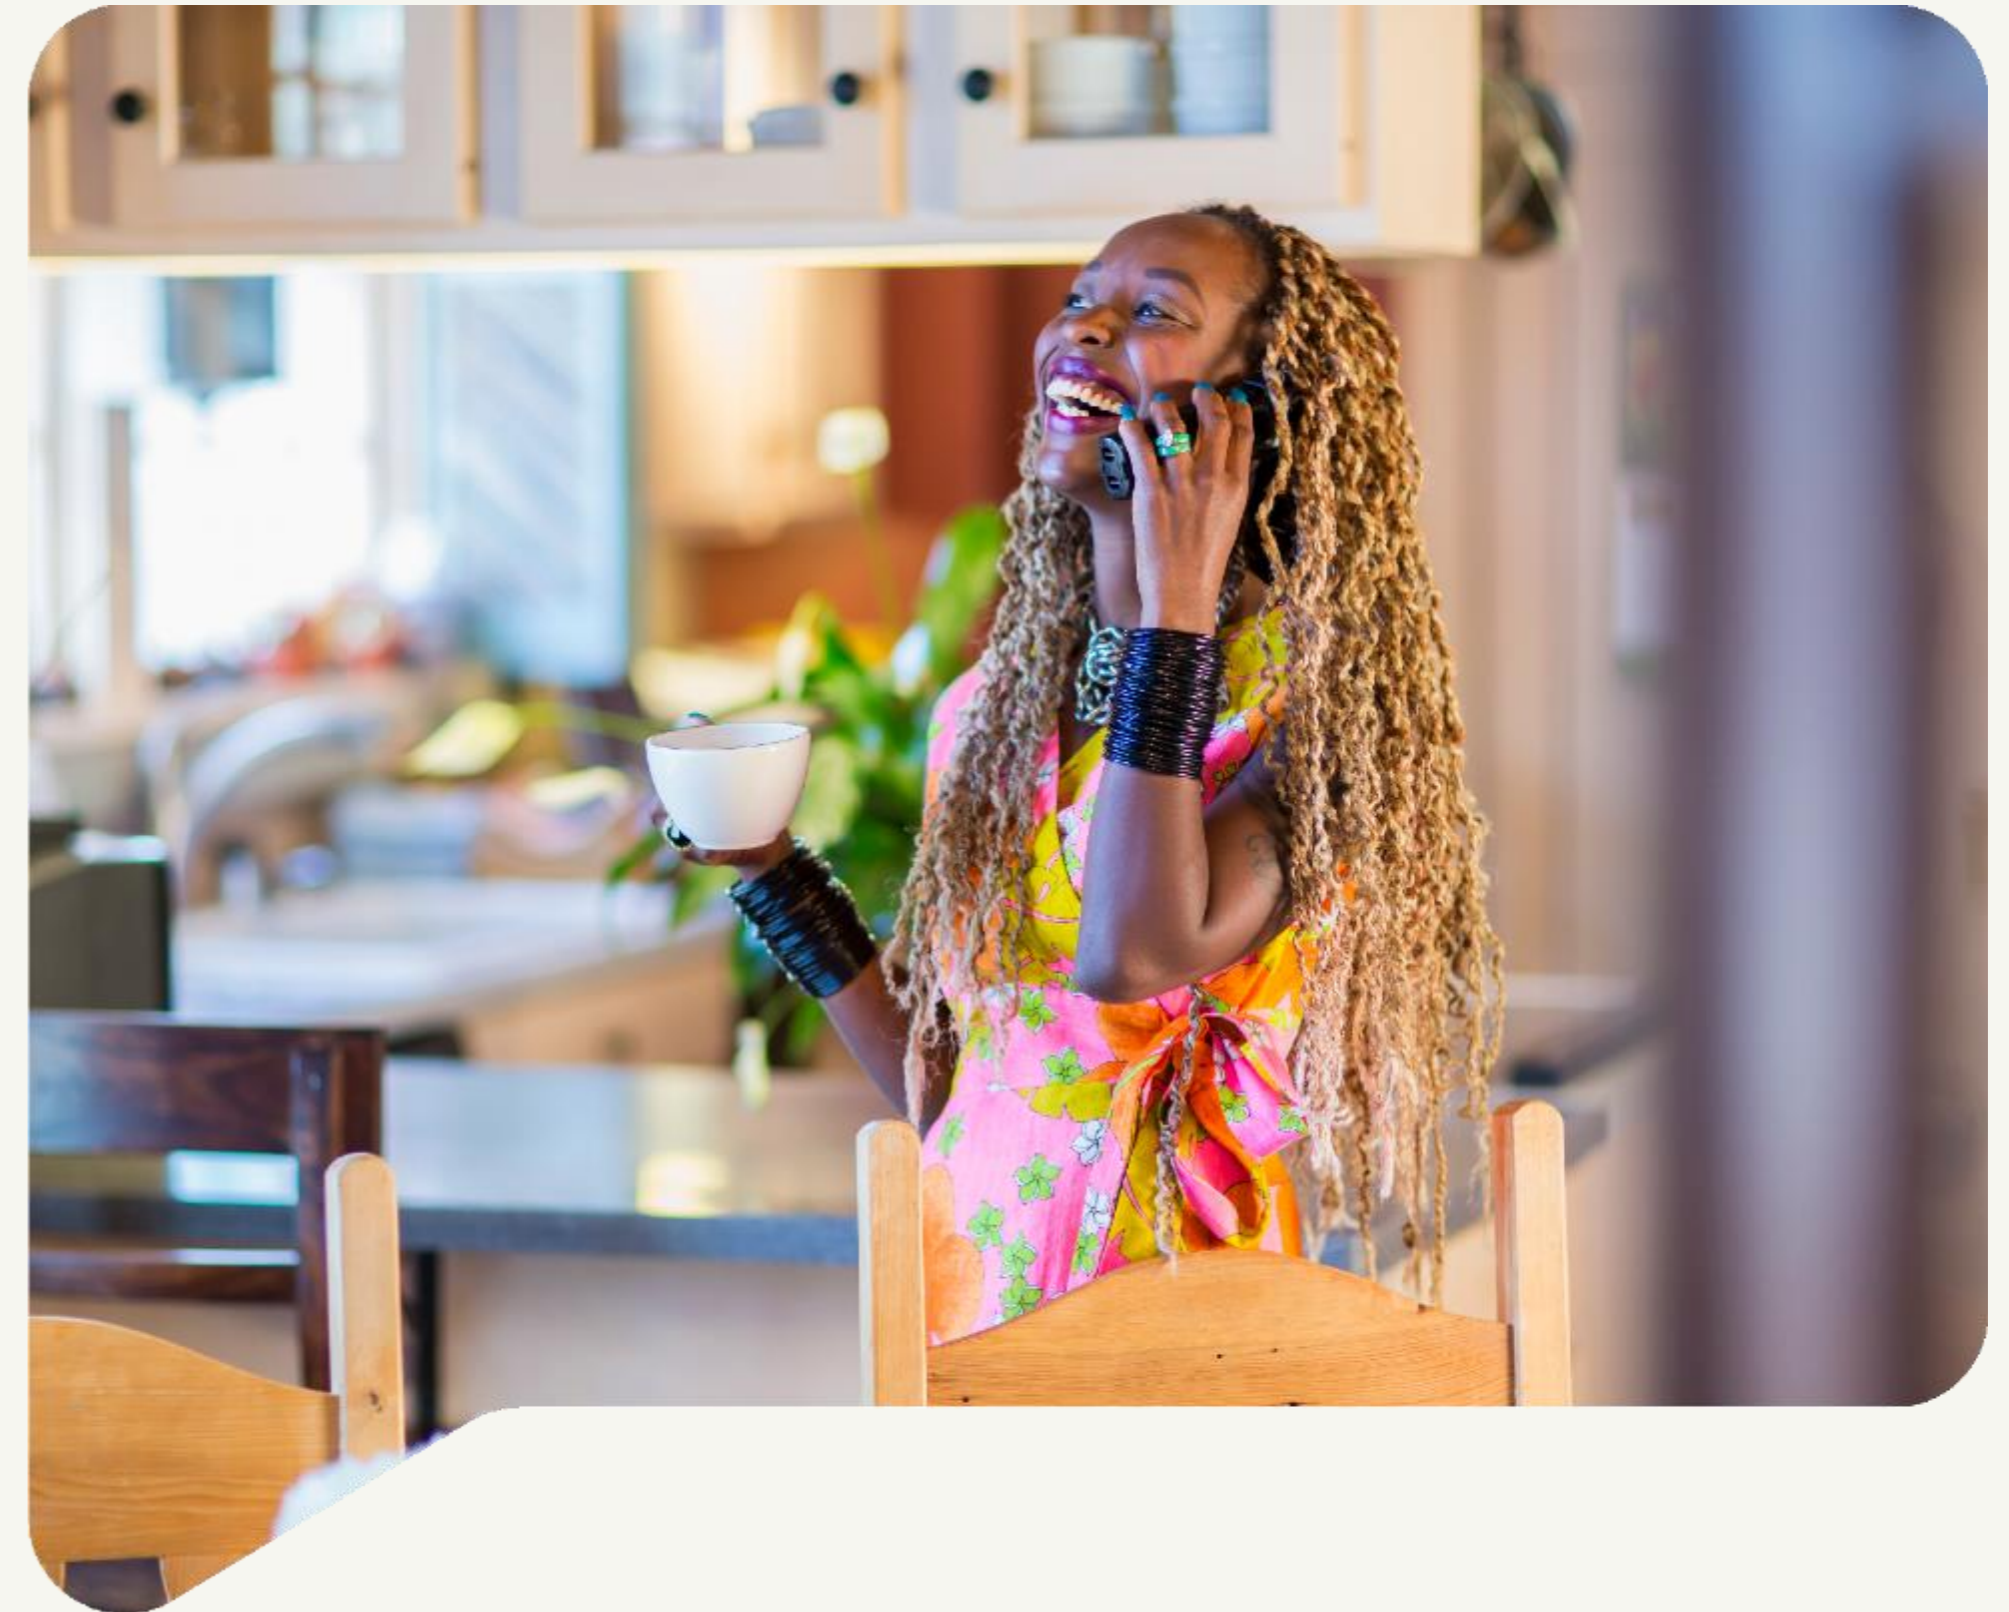

Appointed to role in January 2021

We continue to gather ARC numbers and have a real focus on this at the moment.

Testing of Partner Customer Premises Equipment is underway via remote connection to our lab.

Our test lab is ready to open to visitors once Covid protocols allow. We have a number of third party users from Telecare ready to go.

If anyone can share our invitations for ARC numbers and to visit our test lab please contact me.

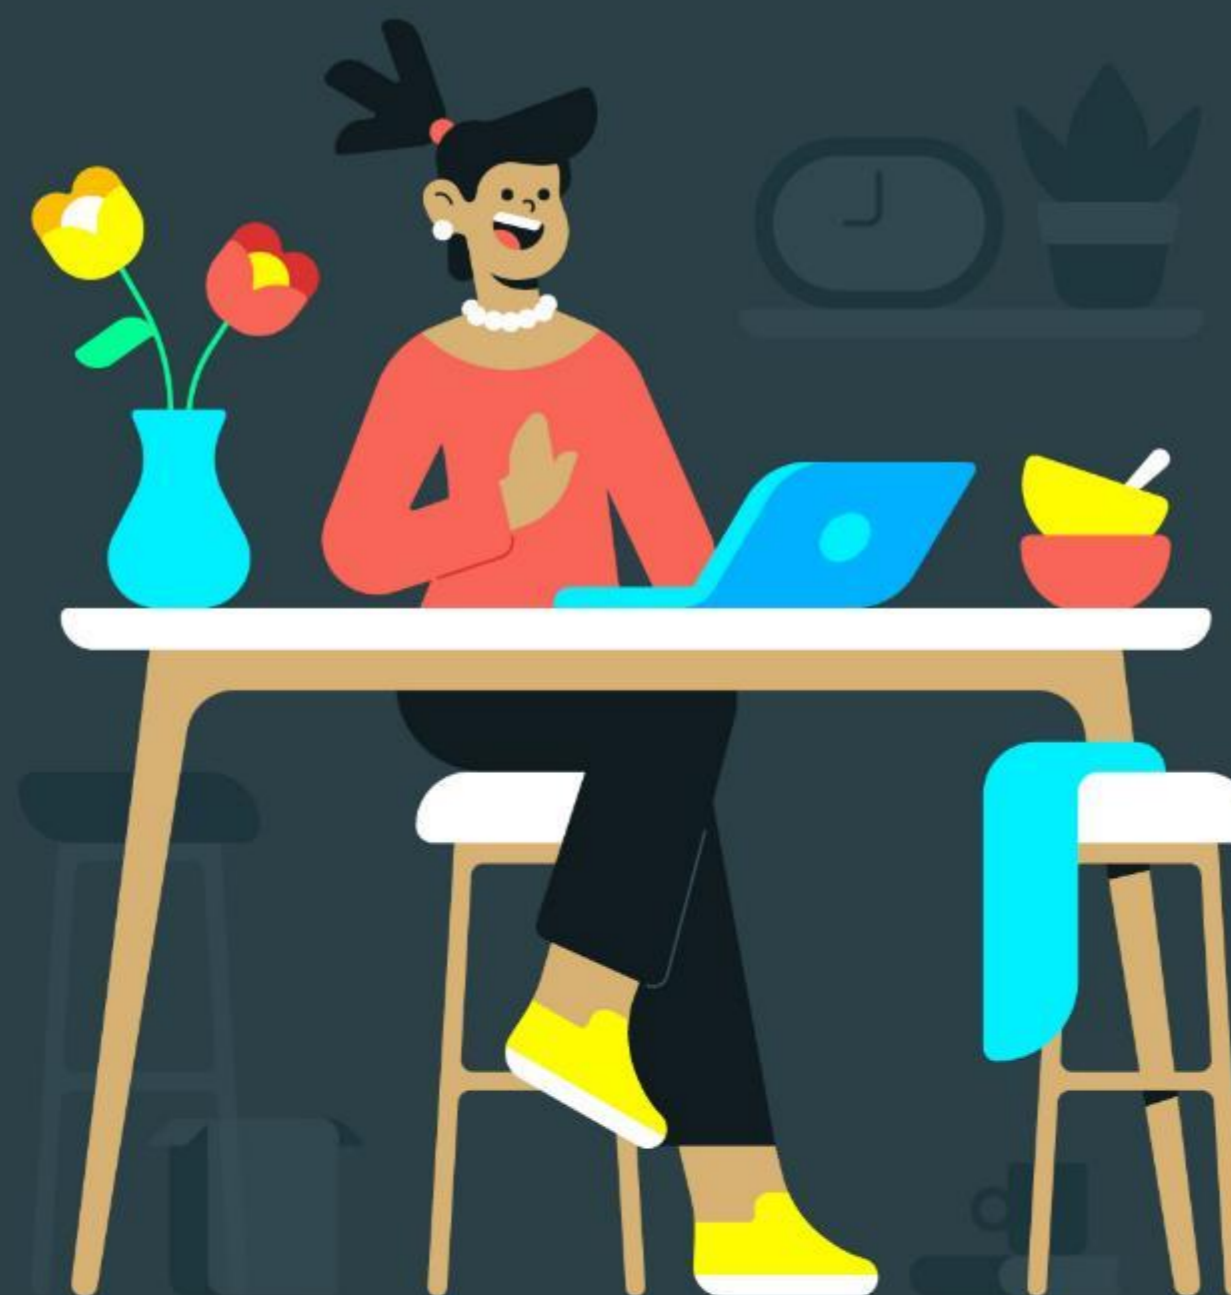

# Thank you for listening.
