

An Insight into how we do Telecare differently

Lowri Jones  
Regional Account Manager

# Who are CAIR?

We believe **everyone's** lives can be improved through innovative solutions and better design. That's why we pride ourselves on creating Telecare and smart technologies that we would all want in our homes. Our technology is designed with everyone in mind, and our aim is to create solutions that are **inclusive and improve quality of life**; we want to make a difference in the lives of everyone who uses our equipment. Continually striving to make the future better, our talented and creative team work closely with our customers to create the **solutions that are really needed**, fuelled by a genuine care for people and the environment...and a mug of Yorkshire tea or two.

The new Insight range combines modern aesthetic design with the high performance and robustness demanded by installers.

# Contact

Door/Window Sensor

The Contact is an innovative door entry and exit solution
