At least 50% less to install in most cases

Origon Hub - Connectivity

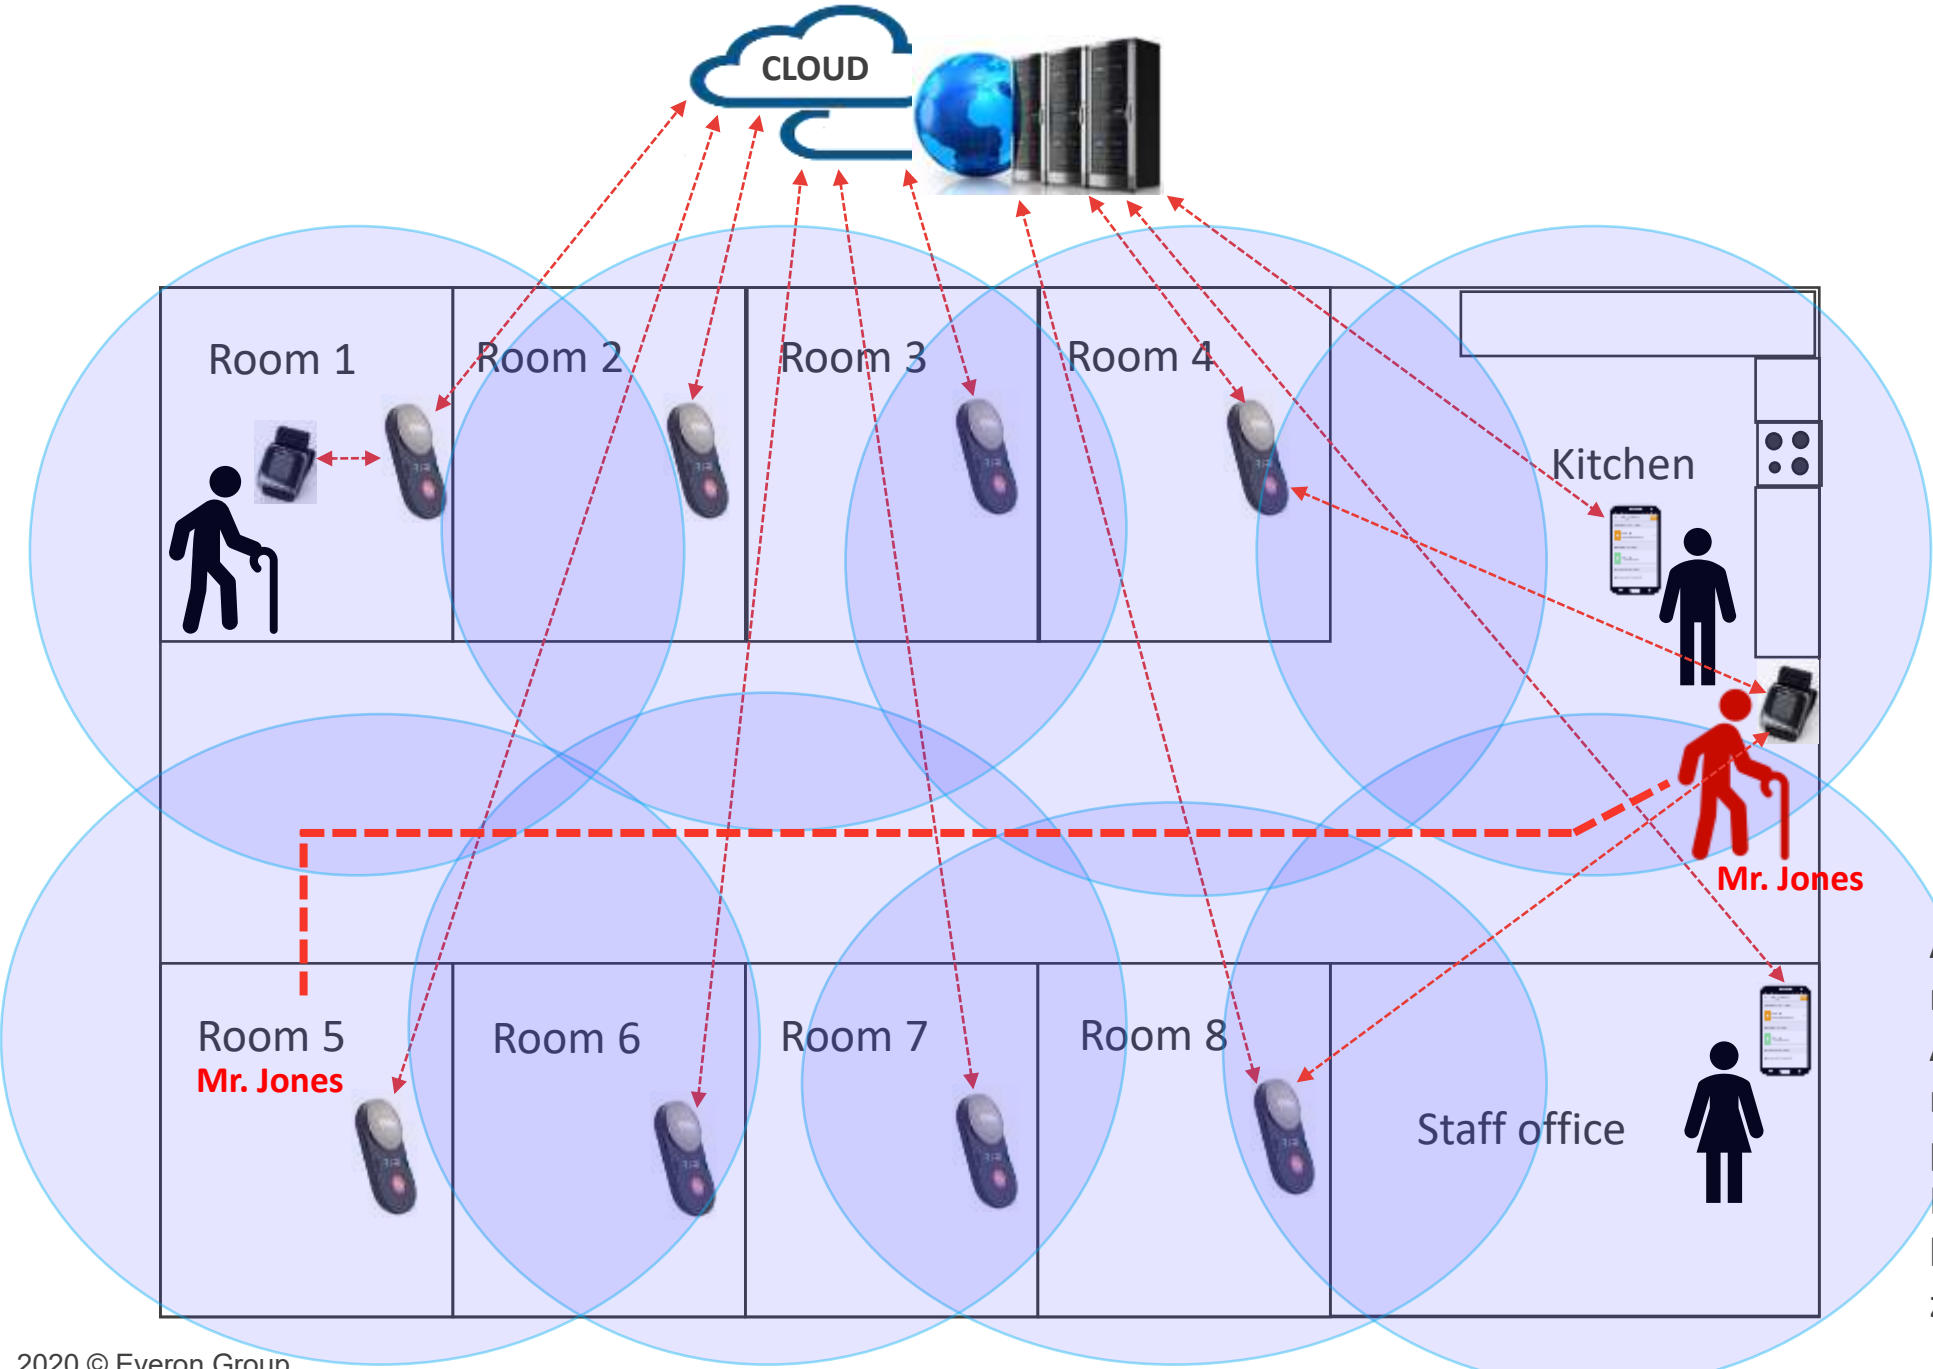

Care home facility location example

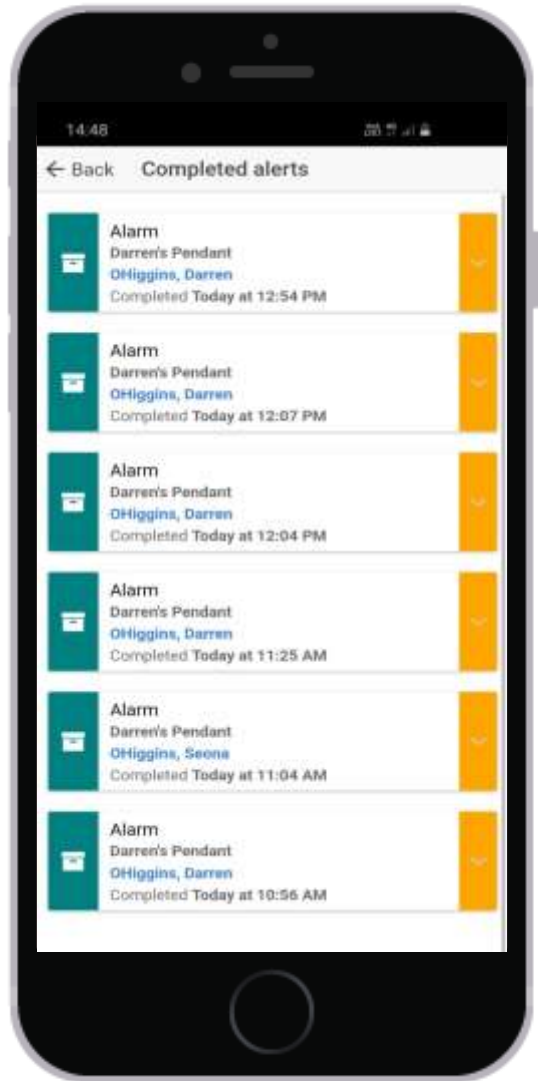

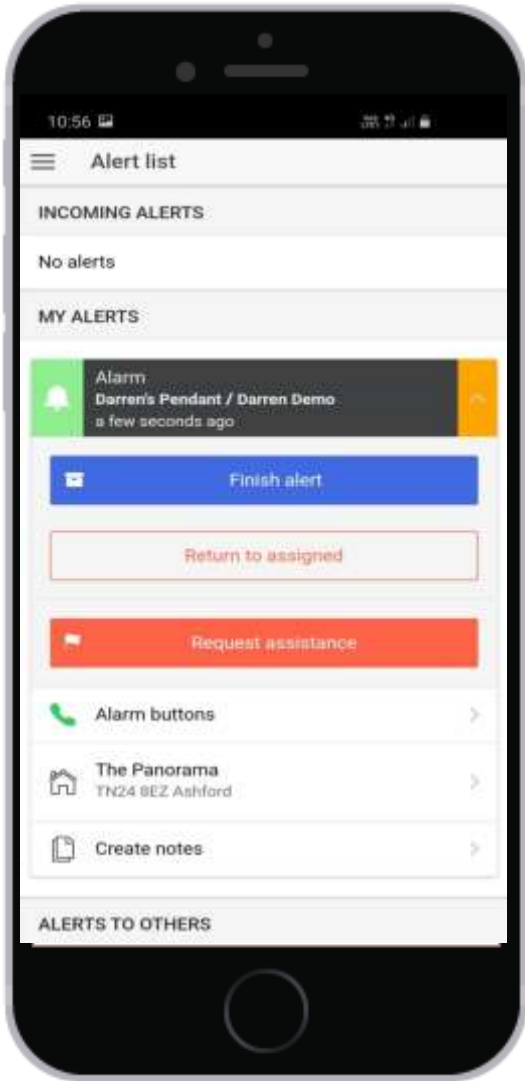

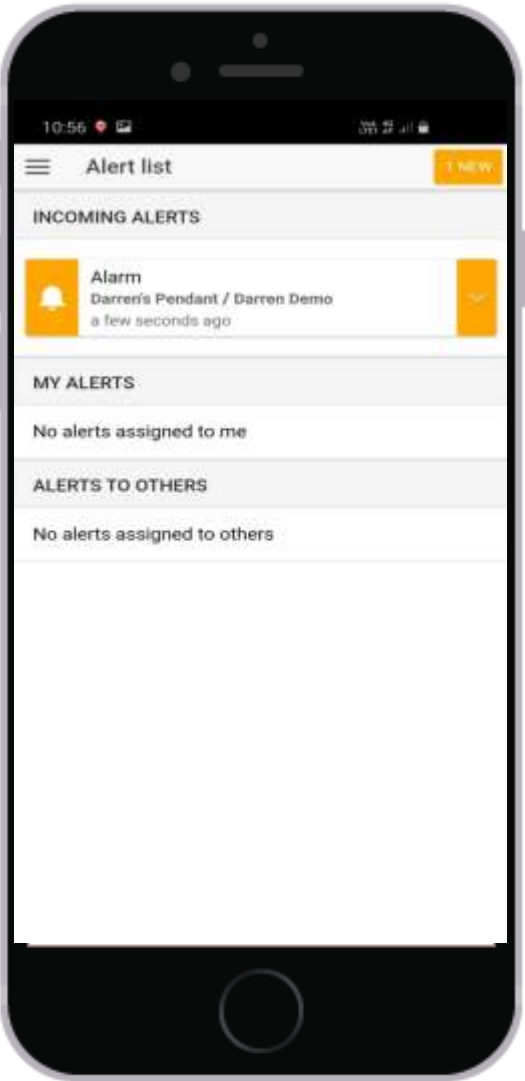

As Mr. Jones walks from his room towards the kitchen, his Alert device moves through meshed radio zones, tracking his progress. If Mr. Jones presses his device button, the system will know his zone location.

Grouped scheme location example

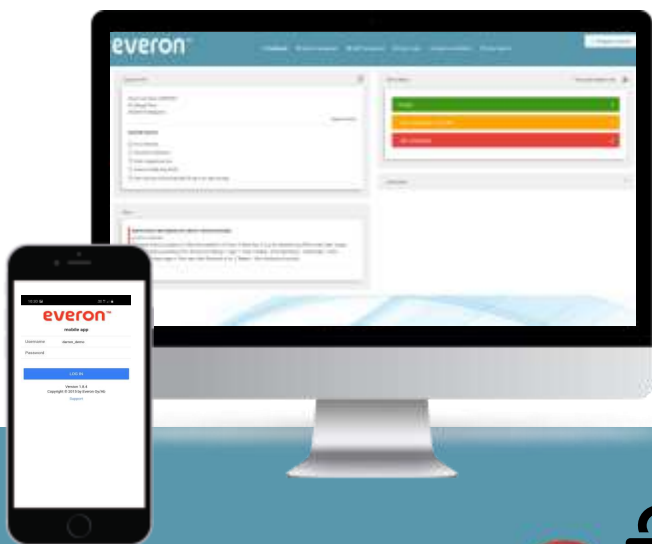

As Mr. Jones walks from his room towards the kitchen, his Alert device moves through meshed radio zones, tracking his progress. If Mr. Jones presses his device button, the system will know his zone location.

Everon mobile app

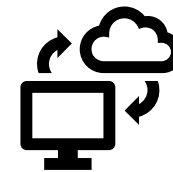

everon™ SMART Alert – The smarter way to manage your Assets and keep your residents **Safe.**

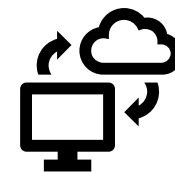

Continuous Monitoring of all Hubs and Everon Peripherals

Collects Data and provides real time alerts

Reduces the need for access to property meaning less disruption

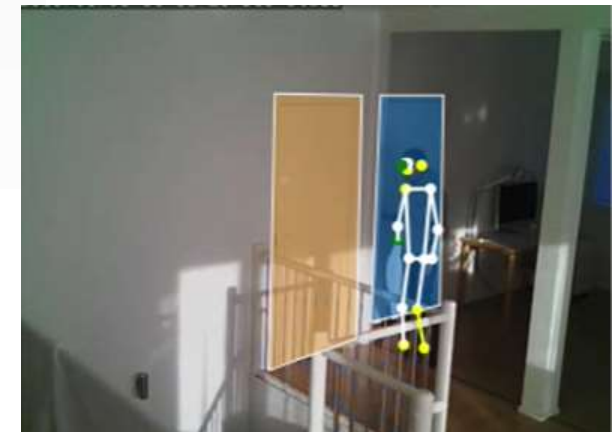

Utilises the strongest mobile connection ensuring reliability

In MyEveron you can handle teams, devices, routings, reports and statistics. Access to all these services is restricted on the basis of

Everon OnOn Digital presence sensor

- A camera that **does not** store images
- A highly sensitive motion sensor
- Uses AI and machine learning
- Detects and alerts
 - Falls / Slumps
 - Activity deviations
 - Changes in gait
 - Bed & Room Exit
- Links to Everon's management portal
- Easy to use

Aquarate Hydracup

IoT System

Fluid consumption data is sent to the cloud to be viewed by professional carers

Wristband (BLE)
Identifies who is using the mug

Hydracup
Holds liquid and sends personalised consumption data to the gateway

Gateway
Transfers information from bluetooth into wifi. (30M)

Wifi Router
Connects to the internet and sends data to the cloud server

Cloud Server
Stores and translates the data into useful information for the WebApp

Everon WebApp
Displays consumption data and enables professionals to view user fluid intake volumes

Real-time fluid intake data

No more paper based records to fill in. See personalised consumption data flow in so you can concentrate on greater patient care.

Fluid Intake History

Keep track of what's happened in the past.

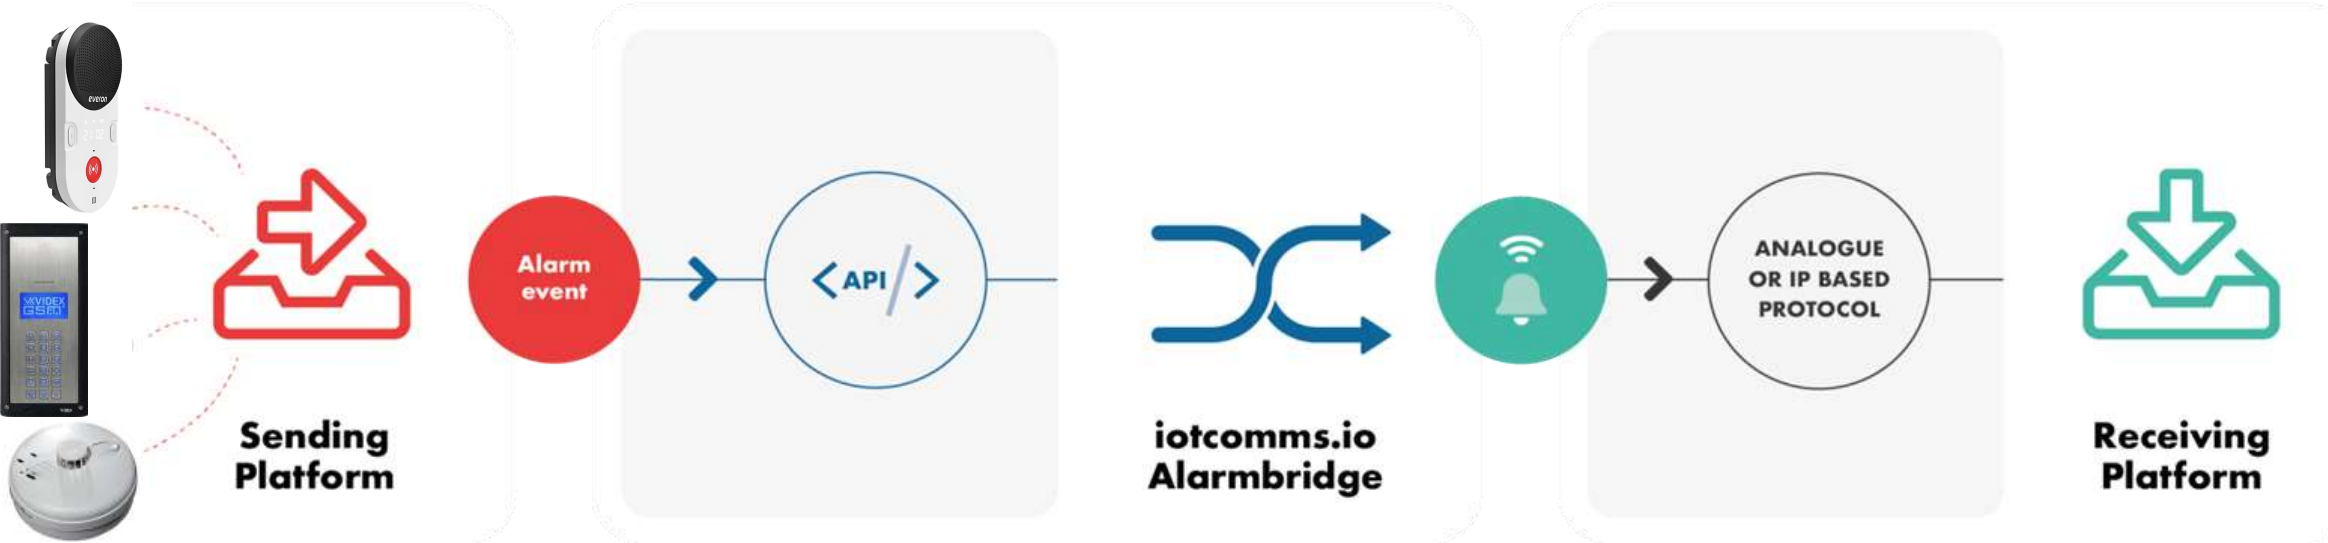

Spill Alerts

Accidents happen. We're here to help. Receive immediate alerts when a spill has occurred and react as soon as you can.

Restricted fluid management

See when your residents have surpassed their allowable consumption limit.

Everon Digital Bridge

**Cenelec
BS 8521
SCAIP**

**PNC'S
Jontek
UMO**

Why choose Everon?

Wireless – Fast, easy, inexpensive installation with minimal disruption and easy to maintain

Flexible – Build a personalised system

Digital – No need to worry when your local operator switches over from PSTN connection

Secure – Built-in resilience using the latest communication protocols and standards

Future proofed – software upgrades via the cloud for the whole system life cycle
