

UKTelehealthcare and Yokeru TECS Vision Day TEC "*Nirvana*"

8/6/2022

Judith Aklama – Careline service manager

PLACE

Strength and weaknesses

- Technology for care management
- Digitally skilled technical businesses
- Passion for the sector and problem at hand
- Potential for longer term use of more advanced solutions
- Elderly tech at home and in care homes
- App based solutions
- Growth of data centric research and innovation
- Active linking of national hubs and access to digital solutions
- Accessible solutions for all
- Tailored solutions for the full spectrum of care
- Care solutions for young, economically active people
- Person centric technology designed for all settings

DIFFERENCES IN CARE SUB-SECTORS

- *There are large differences between the subsectors of care in the types of technology deployed and the function the solutions are performing.*

DIFFERENCES IN CARE SUB-SECTORS

- *There are large differences between the subsectors of care in the types of technology deployed and the function the solutions are performing.*

CLOSER TO THE IDEAL STATE

- Introduce a formal demand-signalling mechanism
- Better development of a wider care technology ecosystem
- To spark a cultural change
- Collaborative partnerships
- Access to a widespread digital upskilling programme for carers
- Market shaping

CLOSER TO THE IDEAL STATE

- Introduce a formal demand-signalling mechanism
- Better development of a wider care technology ecosystem
- To spark a cultural change
- Collaborative partnerships
- Access to a widespread digital upskilling programme for carers
- Market shaping

TEC "NIRVANA"?

- **A TEC sector with a pull strategy where communication of products or information is demanded by users to meet their needs because there is an understanding of their experience from their view point**
- **A sector with a well balance pull and push strategy to grow to its full potential**
