# Andi
by 2iC-Care

**UKTelehealthcare**

## Innovation Showcase

**15th March 2023**

**Richard Keyse, CEO**

Freedom, flexibility and future-proofing

# Meet Andi
by **2iC-Care**

Unlock better care outcomes with Andi

**The essential open infrastructure foundation** to build great care services

Enables ARCS to provide informed and personalised **alarm response**

Alerts and insights for **proactive and preventative**

**2iC-Care**

# Device Freedom

❌ 2iC-Care **does not** manufacture peripherals.

☑ Andi can connect to **any peripheral type** from virtually any manufacturer

☑ Andi can **connect via**:
- Bluetooth
- Wifi
- Zigbee
- RF868
- Cellular (SIM)
- Lorawan
- Ethernet

**2iC-Care**

# Innovating Interoperability
## Device interoperability.

### Definition

Andi can connect to **and** instruct any device type within the home, regardless of the manufacturer.

### Outcome

Device Interoperability improves the safety and comfort for service-users.

2iC-Care

# Innovating Interoperability
## Information interoperability.

### Definition

Andi can bring together information from many devices and data sources and convert this raw data into valuable actionable insights.

### Outcome

TEC providers have the right "actionable information" at the right time so interventions can be faster to improve care for service-users.

2iC-Care

# Innovating Interoperability
## Process interoperability.

### Definition

Andi enables automatic of inter-organisation hand offs ensuring end-to-end processes can be mapped and streamlined to include different stakeholders and systems.

### Outcome

Improved efficiency of care provision for service-users. When an incident does happen, interventions are faster and more efficiently handled by the right people.

2iC-Care

# Actionable Insights for preventative, proactive care

**Client specific knowledge**

**Trends & exceptions**

**Personalised Alerts**

**Fully customisable care processes to increase efficiency**

2iC-Care
