

UKTHC Partner with Cair for their first Yorkshire MarketPlace Event

On July 4th, Cair (UK) Ltd. are teaming up with UKTelehealthcare to hold an exhibition at Cair's HQ in Halifax, West Yorkshire. Approximately 35 industry leading Technology Enabled Care Services (TECS) suppliers and providers will exhibit their life saving solutions. The day will also include exclusive behind the scenes tours of Cair's state of the art manufacturing facilities. The event will be free to attend for all local authority and housing association representatives. [Register for your free place.](#)

Gerry Allmark UKTelehealthcare's MD said, "We are very encouraged by the interest our TECS MarketPlace events have generated across the UK. We have been running these events in London and the South since 2005. However, recently we have successfully branched out to Wrexham and Carlisle and now to our first Yorkshire event in Halifax.

A number of our MarketPlaces have received sponsorship from our support members, but this will be the first event that has been organised and hosted by a leading UK telecare supplier and we are pleased to partner with Cair to deliver this event in Yorkshire."

The theme of the event will be 'Celebrating 20 years of British Manufacture'. Cair's MD Mohammed Chaudhary has been designing and manufacturing wireless connectivity solutions in Yorkshire for twenty years.

Mr Chaudhary said, *We're delighted to be given the opportunity to host this event to coincide with our 20th anniversary, and proud to be able to showcase what we can do."*

Cair, set up more recently, provide innovative telecare devices that are unobtrusive. Cair are also known for the interoperability of their equipment. Similarly, Cair's latest innovation, [the Buzzz notifier](#) can be paired with various suppliers sensors such as bed sensors, epilepsy monitors, door contacts, PIR's and a wide range of other devices to detect and prevent falls or injuries. In the event of an incident, carers or family members are immediately alerted by the Buzzz.

As well as the Yorkshire MarketPlace event in July, UKTelehealthcare hold many regional TECS events throughout the year. They're also calling all in the TECS industry to 'Plan it, Do it and Share it' for national Telehealthcare Awareness Week on 26th-30th of June.
